## WHO AM I?

### THIS IS WHAT I LOOK LIKE

### ABOUT ME

I am originally from Malmö Sweden. A father of 2 boys. A web developer who went from web developing as a hobby to making it my main profession. A hobby level musician who loves playing the guitar (also drums) and on occasion recording my own music. An evening gamer (a big Destiny fan) wishing I had better PVP skills than I do. An educated chef who loves the creative and experimental side of cooking, though apparently found web developing more fun than cooking for a living.

### PERSONAL INTERESTS

Family, traveling, listening to rock and synth wave music, playing videogames, watching sci fi movies and tv series, rollerblading and biking.

### SOCIAL AND LANGUAGE SKILLS

- Social and outgoing
- Easy to work with
- Swedish and English
